

NERVOUSNESS AND BLUES

Symptoms of More Serious
Sickness.

Washington Park, Ill. — "I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies." — Mrs. ROBT. STORIEL, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

If your hair is turning gray or thinning, you'll have a surprise awaiting because after one or two applications the gray hair vanishes and your hair becomes luxuriantly dark and beautiful. This is the age of youth. Gray-haired, attractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

It Is a Khaki Service Suit

Just at the moment when woman-kind was ready and waiting for it, there entered the "service suit." It is a new garment for the new woman, and it has been given this name, duly christened by the patent office. It is the spirit of the times translated into apparel—a thing that we have been waiting for without knowing that we were waiting until it arrived. Therefore it is welcomed with glad acclaim, like that which greeted the airplanes that made the heart to sing at the accomplished conquest of the air.

The "service suit" is made of khaki, and it is good to look at, with convenience and grace and stability to appeal to the good sense of the out-of-doors woman. And just as soon as the out-of-doors woman sees it, she is captivated—and all is over except delivering the parcel. For camping, fishing, golfing, tennis, gardening, beekeeping and farming, it is destined to become the conventional suit. The new garment is cut along lines that are correct for women, and is no more masculine than a party frock is. It is made trouser fashion, with the full trousers plaited to a shapely blouse; it is well tailored and fastens with bone buttons across the back.

The fastening at the back is covered by a wide belt. Nothing about it can come apart and no corset need be worn under it; in fact, undergarments may be reduced to a single union suit. The trousers fasten with a small cuff above the shoe tops and defy the most enterprising mosquito or the most aggressive bee. Hall to the service suit! It marks the passing of the last impediment in our way. It is no compromise between a masculine and a feminine garment, but a new departure—and it is smart.

Lace Trim Voile Blouses.

A voile blouse which has as its special feature a convertible high collar, has a very narrow vest of fine val insertion with a tiny ruffle of val lace at the center. A plaited jabot of voile is trimmed with double rows of insertion and edged with lace to match, and the turnover collar is tucked and finished with lace and insertion. Grouped pin tucks are used on both the front and the back of this blouse.

Gardening Set of Cretonne

Even a little garden is better than no garden at all and everybody, that is anybody with a patch of available ground, is doing some gardening this year. It is unpatriotic and unfashionable to be idle. Even in small back yards, allotted to city dwellers, women are gardening with enthusiasm, and if they raise only a few vegetables for the summer table, they are helping toward conserving food for next winter. In the smaller cities and towns women have a real chance to do real work toward producing the food that is going to be needed to last through next winter. Those who know conditions are advising them to raise vegetables for canning and to put them up in much greater quantities than ever before. By putting up enough to last their own families through they will save food and keep its price down for those who are not situated where they can make gardens. Since duty calls women to the garden to work, clothes have been designed to meet the emergency. Sunbon-

nets, aprons, "overettes" and "service suits" have made their entry to meet with a whole-hearted welcome. These clothes proclaim that their wearers have enlisted to do their bit in the army of producers, and they look fit for the task. The set shown in the picture is for her who has only a little garden, not demanding strenuous work. It includes a sunbonnet, apron and cushion of figured cretonne, is strong and pretty and may be washed. It will stand practical service—in the strawberry patch for instance. The small apron has two pointed pockets that monopolize a good share of its surface. One side of the cushion is made of oilcloth, or leatherette, and there is a small pocket at the top. The sunbonnet, as pictured, has a chin strap of shirred ribbon, but might be fastened with a strap made of cretonne.
